

Circus Wagons To Rumble Once More For Shrine Shows

Rumble of circus wheels, that sound attendant only in the moving of show wagons and familiar to the ears of every man, woman and child, will be heard the first time this year on next Sunday night and Monday morning when the Great Sanger shows will trek from the fairgrounds to their stand opposite Forrest park for six days' exhibition under auspices of Al Chymia temple, Mystic Shrine.

Only a few last details now are to be finished by Howard King, manager back with the show, and the circus will be ready to move. Wagons have been given their last coat of paint and gold leaf. Tents have been overhauled and "done" with water-proof preparation. Performers have been rehearsing for the last week and will "roll out" for the initial performance Monday afternoon.

Floyd King, with his brother Howard, owner of the Sanger Shows, has left Memphis and will again be in advance of the circus this season.

Ed Kline, known as "Mr. Ringling," Friday said it's fine business being a circus man except that he has to turn down routes for passes. Ed said the biggest tent in the world couldn't accommodate all the persons who had reserved "passes."

ADVISES BUYING COAL DURING HOT MONTHS

B. J. Rowe, coal traffic manager of the Illinois Central, while in Memphis Friday, said that while no one could predict the trend of retail prices for coal during the coming season, in his opinion the wise householder will put in his winter supply some time during the coming summer.

That advice is in line with that of retail coal men, who have always advocated deliveries of winter coal during the summer months to relieve the heavy demand which always comes with cold weather.

Retail coal dealers, however, are not ready to make any prices for coal except for immediate delivery, as the market at the mines and with the jobbers is not stabilized and it is impossible to make contracts yet for future delivery.

BUSINESS CHAMBER DIRECTORS MEETING

Members of the board of directors of the Chamber of Commerce met Friday afternoon at 3 o'clock for their final business session. The present administration goes out within the next fortnight.

The principal matter that came up for discussion was that of securing funds for the building of a home for the Chamber of Commerce of the United States. This building will be located in Washington, S. B. Amberson talked to the directors and offered proposals for raising Memphis part of the fund asked. All other civic clubs in the country have been asked for aid in the construction.

Other routine matters came up.

Paine Will Talk To Ripley Business Men

Mayor Paine will be the guest of honor Friday night at a meeting of the Business Men's club of Ripley, Tenn., at which new officers of the club will be inaugurated. He has been asked to speak on good government, good roads and good schools.

PEOPLE MAY ENJOY BAND CONCERTS THIS SUMMER

The park board at its meeting Friday afternoon discussed the probability that with more funds at its disposal it will be possible to make an appropriation for the park band concerts, which have been so popular every season. If the city assessment reaches the figures anticipated by Mayor Paine, the park board will have a larger appropriation than for several years. Bids for the concerts will probably be asked for next month, and the season will begin about the first Sunday in June.

PHOTOGRAPHY WILL BE SHOWN IN MAY

What promises to be one of the most interesting art exhibits of the season to the average person is that of amateur and professional photography at the Brooks museum during the month of May. Those in charge of working up enthusiasm report many inquiries and already there are many exhibits ready to be placed.

Miss Florence McIntyre, custodian of the museum, and Gilmer P. Winston, vice-president of the Union and Planters bank are headquarters as to information regarding the display and will welcome profuse of pictures from anybody.

The display will be in one of the main rooms of the building and it will be placed so as to be most attractive. The purpose of those behind the movement is to stimulate and encourage love for the art and it is hoped the collection will include representations from every branch of photography, especially from the small kodak fiends, for it is recognized that some of the finest specimens will come from that direction.

The display will be free to the public and will be kept intact during the entire month.
